### (2) Reason for revision

The Company considers returning profits to shareholders to be an important management issue, while paying attention to enhancing internal reserves in order to actively implement R&D activities. Our basic policy is to return profits to shareholders based on a comprehensive consideration of our operating results and financial position. Specifically, the Company's policy is to pay dividends from retained earnings of the high 30% range of the estimated net income, which is calculated without taking into account extraordinary gains and losses in the consolidated financial statements.

Based on the above upward revision of the full-year consolidated financial forecast and the above shareholder return policy, the Company has revised the year-end dividend forecasts for the year ending March 31, 2023 from ¥40.00 to ¥42.00 per share.

The year-end dividend for the fiscal year ending March 31, 2023 is scheduled to be discussed at the 21<sup>st</sup> Ordinary General Meeting of Shareholders to be held in June 2023.
